

RAVEL fresh-anchor diagnostics

ATLAS released reference: 13 TeV, 139 fb⁻¹. Conditional inclusive normalization.

Central limits only; reference errors are unavailable. MC precision is not a limit error bar.

The 5% formal checkpoint is at 150/140; other points are analogous diagnostics.

49 of the 52 intended nominal points remain without a completed fresh simulation.

No acceptance, detector-calibration or statistical-coverage certificate.
